Handcrafted Pewter Cabinet Hardware

At our production plant in Providence, RI, we still use the same manufacturing techniques used in making fine jewelry. We hand sculpt each original mold model, handwork each production mold, and hand cast each piece in 100% pewter. Our designers and quality control staff oversee each step of the production process. They supervise the finish application, sanding, polishing, and lacquering of each piece.

These knobs and pulls coordinate with our wall mounted classic bath hardware and our vanity top accessories.

Design Your Own Bath Accessories

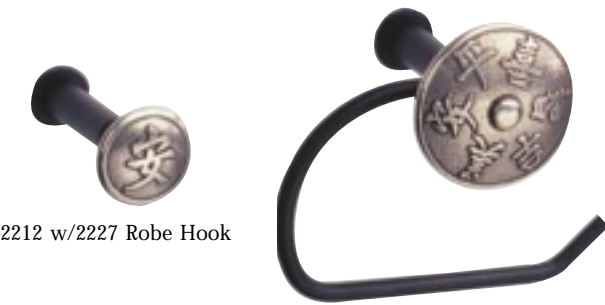

Any of our pewter cabinet knobs in any of our 19 standard finishes can be used for self expression in designing bath hardware. To customize bath hardware follow these easy steps:

- Step 1 - Select base component
- Step 2 - Select accent knob
- Step 3 - Mount accent knob to base component at installation

Base components also available in black, chrome, and satin nickel. Towel bar available in 18" or 24".

Inspired by the philosophy and lore of ancient tradition Anne At Home's Asian collection embodies the simple well-proportioned designs of Asian culture. These distinctive cabinet hardware pieces serve as reminders of the need for balance, health, and well being in our everyday lives. We invite you to relax into the environment that these pieces help create in your home.

New Traditionals

100% HANDCRAFTED PEWTER

Anne at Home is a manufacturer of fine pewter decorative hardware and accessories.

All Anne At Home pulls are available in 3" CTC. Many are also available in 3 1/2", 4", 5", & 6" CTC.

Our finishes are hand applied. Several finishes such as #3 Rubbed Bronze and #17 Weathered White are also hand rubbed. All of our handcrafted items are available in any of our 19 standard finishes.

Select items are also available in epoxy finishes.

We offer hundreds of designs too numerous to show in this brochure.

To learn more about Anne At Home visit your local decorative hardware retailer or visit our website.
